51. Piggery from Schalkau

Welcome to Kloster Veßra

In the preland of the Thuringian Forest at the confluence of the rivers Schleuse and Werra lies the former monastery of "Praemonstratenser-Chorherrenstiftes" Veßra. Well preserved in its structure, it now houses the Hennebergian Museum of Kloster Veßra.

The museum is dedicated to historical research and the presentation of the former monastery and its surrounding county of the Earls of Henneberg. It further explores the folklore of the region in the South of Thuringia.

Throughout the centuries, this area – surrounded by the mountaintops of the Thuringian Forest, the mountains of the Rhoe and the region of the Grabfeld – has developed its own distinguishable historical and cultural life.

The mission of the Hennebergisches Museum of Kloster Veßra is to record and explore its cultural identity. Moreover, it aims at making it accessible to the general population and keeping it alive as part of the many-sided cultural landscape in the heart of Germany.

Every year in the Hennebergian Museum Kloster Veßra take place different festivals and events:

- »museumfestival« with different topics in may
- »German Mill Day« at Whit Monday
- »Night of the Museum« in august
- »Festival of autumn« with tipical crafts in september

More events and informations are available at www.museumklostervessra.de
